Architecture and Engineering

Design that Motivates and Inspires

When form meets function, amazing things can happen. NIKA understands that the best design doesn't just address your organization's needs, but motivates and inspires those who experience it. Our architects and engineers are technical experts with a passion for the art of creation. The Architecture and Engineering (A/E) team thrives in uncovering smart solutions to challenging design issues, helping clients meet their mission. The team strives for service excellence and design solutions that exceed expectations.

NIKA's A/E professionals have unique, specialized expertise in the design of complex and sensitive facilities, including: public buildings, hospitals, clinics, research and development facilities, laboratories, diplomatic missions, military facilities, and educational facilities.

With a full complement of in-house A/E professionals, NIKA stands out from the competition. Our employees are licensed architects and engineers, CAD designers, operators, technicians, programmers, interior designers, project managers, security specialists and spec writers with focused expertise in:

- ◇ Architecture
- ◇ Master Planning
- ◇ Interior Design
- ◇ Mechanical, Electrical and Plumbing Engineering (MEP)
- ◇ Fire Protection Engineering
- ◇ Physical Security Design

In addition, NIKA provides a number of specialized services:

- ◇ Full design services from concept through construction documents
- ◇ Facility condition assessments, including feasibility studies
- ◇ Whole building commissioning
- ◇ Building information modeling (BIM)
- ◇ Services for US Green Building Council, Leadership in Energy and Environmental Design (LEED) certifications
- ◇ Building energy modelling
- ◇ Low voltage design

By combining A/E services with enterprise technology solutions and facilities operations management, NIKA is able to provide exceptional value and stellar client service.

From advisory to design and construction, NIKA is committed to forming lasting partnerships by providing innovative solutions to meet your real-world needs. Our collaborative approach and dedication to sound decision-making results in a forward-thinking solution for every client.
