 ENGINEERING

NIKA delivers comprehensive services and solutions to support the full life cycle of facilities. For more than two decades, the Department of Defense and federal civilian agencies, as well as commercial and higher education institutions, have trusted NIKA to design, build, operate, and manage their real property. By combining facilities operations management, engineering, and architecture services, we provide value and expertise for complex and mission critical facilities. Headquartered in Rockville, MD with offices in San Antonio, TX, NIKA helps clients enhance operational excellence in locations around the globe.

WHERE WE ARE

NIKA is privately-owned and operated company with more than 250 dedicated professionals on staff, including facility-focused architects, engineers, technologists, operations specialists, and more. Our subject matter experts have supported clients in more than 45 states and 29 countries across the globe.

THE NIKA ADVANTAGE

Full Facility Life Cycle Support – Whether planning a new building, breathing new life into an old one, or working to improve facility performance, NIKA has the expertise to support our clients at every stage.

Passion for Innovation – NIKA professionals are known for their creativity and unique approach to problem solving. For every challenge, we are inspired to develop a solution that breaks barriers.

Talent that Transcends - At NIKA, we take knowledge seriously, hiring the best and brightest experts in every discipline. Our professional staff goes above and beyond to defy expectations.
